Neighborhood Association: First Addition Map & Tax Lot: 21E3DC 5700

REMINDER: A tree cutting permit is required to remove trees larger than 5 inches in diameter.
Topping trees is prohibited in the City of Lake Oswego.

City of Lake Oswego Community Development Department 503-635-0290

TREE REMOVAL QUESTIONNAIRE

The City's Tree Code encourages tree preservation and protection because trees are a valuable community resource that contribute significantly to Lake Oswego's quality of life.

The City's Tree Code requires a Type II permit for the following situations:

- Removal of a tree on a residential property (that is occupied by a single family dwelling) that is larger than 10" in diameter or trees that are beyond those allotted through the Type I process.
- Removal of any tree(s) that is 5" or greater in diameter on property other than single family residential or any vacant site.

A Type II permit **may only be approved** if you can demonstrate through the required application materials that all of the following criteria are satisfied. **Please be as thorough as possible with your answers.** City staff will visit the site, review this application, and make a decision regarding this request. You will be notified if additional information is needed.

Please answer the following questions:

Removal of trees under a Type II permit is only allowed for two purposes: landscaping or constructing a development that is approved or allowed by applicable development regulations. (Note: If the removal is for purposes of development, you must meet on-site with the City arborist prior to submitting this application. Call 503-635-0290 to schedule this meeting.)

1. Please explain how the removal of the tree(s) relates to one of the two allowed purposes. Please attach a landscaping or development plan.

replant small shrubs as area is only 1' from foundation

2. Will removal of the tree(s) have a significant negative impact on erosion, soil stability, flow of surface waters, protection of adjacent trees, or existing windbreaks? (Note: A simple yes or no response is not adequate. Describe details of your lot such as number of trees, tree sizes, slope of land, and trees on adjacent lots and in the neighborhood.)

no area is a tight space between my house + neighbors paved walk and I will use shrubs to stabilize soil.

3. Will removal of the tree(s) have a significant negative impact on the character, aesthetics or property values of the neighborhood? (Note: A simple yes or no response is not adequate. Describe the tree character of your neighborhood and how this tree removal would impact that character.)

no this tree is located between 2 houses and my lot has nearly full tree canopy as it is.

4. Is removal of the tree(s) for the sole purpose of providing or enhancing views? no

The City may approve a tree removal request if it is demonstrated that no reasonable alternative exists in order to allow the property to be used as permitted in the zone. **In making this determination, the City may require alternative site plans or placement of structures (including alternative foundation designs) or alternative landscaping design that incorporates existing trees.**

Mitigation for the removal of each tree is required as a condition of approval of a permit, if approved.
